Army Corps of Engineers to hold technology conference on Indiana Harbor project

The U.S. Army Corps of Engineers, Chicago District, will host a technology conference regarding construction of the Indiana Harbor confined disposal facility (CDF) from 6:30 p.m. – 8:30 p.m. on Aug. 13, 2008, at the East Chicago City Administration Building, 4444 Railroad Ave., in East Chicago, Ind. Public participation is encouraged.

Topics include a summary of the existing ambient air monitoring program data, and an introduction of the proposed air monitoring program to be implemented during dredging and disposal operations at the CDF.

For additional information, call the Corps' Public Affairs Office at (312) 846-5331.
